

Expansion of consciousness with intensive light therapy

PandoraStar – unfold your full potential!

Would you like to experience a state of deeper meditation, consciously initiate astral journeys or recharge your energies? Perhaps you'd like to sleep better, learn better or remember things? Do you wish for more balance and motivation in everyday life or the activation of your third eye? Then PandoraStar Light Therapy is for you!

In these extraordinary sessions, strong light signals are used to awaken a series of specific brain activities in your brain. Through the very intense flickering kaleidoscope-like light in different frequencies you can achieve the activation of certain states of consciousness.

As you lie below it with your eyes closed, you are transported into a wonderful virtual reality of colors and shapes. Some programs are accompanied by music that further enhances the effectiveness of light therapy. Users report that light therapy with the PandoraStar is a gateway to true magic. The experience itself was a lot of fun and left a lasting impression.

The device can be set to any frequency between 0.1 Hz and 200 Hz. At a certain level the DMT production is stimulated which activates the pineal gland. The rhythmic and intense light stimulates strong, temporary EEG brain wave patterns that would normally only occur after several years of meditation practice. Even meditation beginners will quickly experience a state of deep relaxation and even true kaleidoscopic color patterns and psychedelic images.

Below is an overview of the different programs with which you can realize conscious expansion and self-healing experiences.

1. Activation of the third eye:

This program stimulates the pineal gland and the third eye and simultaneously supports the associated areas of the brain. It is very important to use the program correctly: Focus and relaxation are crucial for the activation or opening of the pineal gland.

Price: 60 €.

Duration: approx. 19 minutes

Frequency: 1.45 Hz, 7.83 Hz, 33 Hz

2. Release adhesions and addictions:

EEG studies show that addictions (drugs/alcohol/other) without the use of the external substance or behavior inhibit the body's ability to release alpha/theta brain waves. This drives desire. The different frequencies of this program generate images and provide a deeply relaxing state. We recommend a conscious breathing pattern that can be used regularly after the session for use in other times and situations.

Price: 60 €.

Duration: approx. 28 minutes

Frequency: 10 Hz, 7.5 Hz, 5 Hz

3. Aurora (with audio):

"Aurora" is a deep relaxation program inspired by Nicola Tesla, based on the mathematical principles of the numbers 3, 6 and 9. During its development, a number of interesting synchronicities were created. The program is designed to relax you and at the same time greatly improve your cognitive ability. The effect is to illuminate the brain and put you in a completely different trance state.

Price: 60 €.

Duration: approx. 18 minutes

Frequency: 6 Hz, 9 Hz, 40,5 Hz, mixed

4. DELTA 105:

This program has been specially developed to positively influence aging processes. The different frequencies stimulate serotonin, endorphin and melatonin production as well as blood circulation in the brain, which is essential for good mental health and function.

Price: 60 €

Duration: approx. 34 minutes

Frequency: 10 Hz, 7.80 Hz, 1.05 Hz Delta

5. Emotion (with audio):

This is a program of theta band frequencies that enable the experience of deep emotional healing, meditation and tranquility. We recommend that you set the intention to heal an emotional stress in advance. Please do so and leave everything else to that higher source of wisdom that personally pleases you. This journey leads the brain into the twilight zone, where the boundaries between the conscious and the unconscious become blurred - a good place for insight and guidance from higher states of consciousness.

Price: 60 €

Duration: approx. 30 minutes

Frequency: 8 Hz, 7 Hz, 80 Hz Gamma

6. Happy:

An anti-depression program designed to create a state of grounded and balanced well-being with increased motivation. Depression requires active participation in healing for long-term results. These sessions over several weeks can have good long-term effects even after the end of the sessions.

Price: 60 €.

Duration: approx. 23 minutes

Frequency: 14 Hz, 38 Hz

7. Hypnagogia:

"Hypnagogia" was designed to mimic the transition from waking to sleeping, a naturally occurring hypnotic state with many amazing applications including: lucid dreaming, remote viewing, creative visualization and conscious out-of-body experiences.

Price: 60 €

Duration: approx. 30 minutes

Frequency: Mixed frequencies, 10 Hz - 7.8 Hz

8. Clear head:

This program was developed to relieve headaches and to control pain. A wonderful program to "clear your head" as well. By combining different frequencies you will experience the release of serotonin and endogenous substances that promote balanced sleep, mood improvement and relaxation. If used without an acute headache, it can give an unusual but very pleasant feeling of clarity.

Price: 60 €.

Duration: approx. 20 minutes

Frequency: 80 Hz, 2.5 Hz, 2.5 Hz

9. Inner journey (with audio):

A program to activate the pineal gland, to deepen your meditation and to discover yourself personally. After this journey, the users have reported on intensive image worlds, out-of-body experiences and insights gained. This program takes you on a journey of inner insight by combining the programs "Activation of the Third Eye" and "Tibet" into a gamma/alpha mixture.

Price: 90 €

Duration: approx. 40 minutes
Frequency: Mixing from 0.2 Hz to 200 Hz

10. Remembrance:

A visual program for the development of long-term memory. With the help of this program, both hemispheres of the brain are synchronized, consolidating the knowledge and ability to remember. The program can be applied well before, immediately after, or at the end of the day, while you are looking at what you have learned during the day. When sleep comes, the mind can process and store what it has learned.

Price: 60 €.
Duration: approx. 22 minutes
Hz: 7.8 Hz, 10.20 Hz, 12 Hz, 12 Hz, 40 Hz

11. Recharge your energies:

This program is perfect for people who work a lot. It is designed to relax, relieve stress and find solutions to challenges, and then return you to a renewed, "ready to go" state. It creates a stronger connection to unconscious resources for insight, inspiration and healing and a (mental and chemical) balance of body and mind. A relaxed selection of music goes very well with this.

Price: 60 €.
Duration: approx. 22 minutes
Frequency: 7.8-6.8 Hz, 10-10.5 Hz, 12 Hz, 40 Hz

12. Relax:

This program delivers what it promises: brings relaxation, creates a meditative state and refreshes.

Price: 60 €.
Duration: approx. 32 minutes

Frequency: 18Hz, 8Hz, 4Hz, 4Hz, 12Hz

13. Tibet:

This meditative program takes you deeper. Deeper than deep. It combines two frequencies: the lowest epsilon with the highest lambda frequency. The intensity and function of the program have been adjusted to create a pleasant connection. If you combine it with deeply controlled breathing, you will probably travel to a completely different wonderful place.

Price: 90 €.

Duration: approx. 30 minutes

Frequency: 0.2 Hz and 200 Hz

14. Change to right brain dominance:

This program is designed to create a shift from left to right brain dominance and will help stimulate your creativity and emotional development. The small frequency range turns on brain regions associated with mood, empathy and social behavior. For best results it is recommended to combine it with loving and compassionate thoughts.

Price: 120 €

Duration: approx. 60 minutes

Frequency: 10 Hz, 110 Hz, 110 Hz

15. Journey into the depths:

This is a very powerful program that should be used with caution. For best results, use in the early morning hours after 6 hours of sleep is recommended.

The deep journey consists of three parts, each of which is completed by briefly switching off the light. Part 1 is a gentle start. Part 2 leads into the depths. Part 3 stimulates emotional processing and creativity, activating brain regions associated with empathy, mood and social behaviour. In addition, the cognitive abilities (faster processing

processes in the brain, memory and concentration) are increased and unusual perceptions such as lucid dreaming can occur.

Price: 360€

Duration: 3 hours

Frequency: 10 Hz, 7.83 Hz, 7.80 Hz, 40 Hz, 110 Hz
